**SKYWEST SIGNS INTERLINE AGREEMENT WITH HAHN AIR**

The Board of Advent Air, which owns and operates Australian based Skywest Airlines Pty Ltd ("Skywest"), is pleased to announce today that Skywest has signed a new interline agreement with European operator Hahn Air.

The agreement will deliver the benefit of seamless ticket transactions, and allow European tourists to easily book their Skywest regional Western Australian travel through their local travel agent or Hahn Air Direct.

Chairman Jeff Chatfield said: **"This agreement will provide a significant boost to regional tourism by allowing European international travellers to purchase an international ticket that includes a Skywest destination. This is terrific news for tourism in Western Australia as it has the potential to increase the number of international travellers into regional WA."**

The announcement of the Hahn Air agreement comes off the back of a recently released UK survey that showed British tourists rate Broome, Western Australia as one of the top ten best foreign tourist spots. Cable Beach Broome rated the ninth most popular foreign tourist destination.

**"Broome's popularity amongst British tourists is a strong indication for a need for an easier, more convenient booking system, which Hahn Air will provide."** Mr Chatfield said.

Skywest flies from Perth to Broome daily, as well as 13 other destinations throughout Western Australia, as well as interstate to Darwin and overseas to Bali.
