**SKYWEST AIRLINES LTD**  
**(“Skywest” or “the Company”)**

**SERVICE UPDATE**

Skywest observes that one of the major airlines in Australia is experiencing industrial relations issues. Skywest advises its customers and the flying public, that where possible, it will immediately add services to meet demand.

Skywest recognizes the economic importance of the mining and resources sector of Western Australia and hence in the face of the disruption experienced by the competitor, from Sunday 30 October Skywest will be adding extra capacity to and from various airports within Western Australia.

Scheduling of extra flights will be at all times subject to the limitations of crew rosters and aircraft availability.

Skywest's first priority will be to provide increased capacity to its existing resource clients. In this respect Skywest is contacting customers directly on an individual basis to provide solutions to their travel needs.

For information on additional services please call Skywest on 1300 660 088 or visit [www.skywest.com.au](http://www.skywest.com.au)
